STEAMBOAT SPRINGS 2009!!!

Greetings everyone! As you may already know, we are heading back to Steamboat Springs this year for our annual winter ski trip. As the air turns cold here in Murfreesboro, our thoughts have already shifted to the morning fresh powder runs, the white pine tree scenery, and the thrill of skiing down over 150+ different runs that Steamboat has to offer. Here at MTOP, our ski trip starts really hitting home for us when the leaves start falling and the signs of summer are behind us, and that is when the anticipation hits us. I hope this year your anticipation is growing and you are looking forward to joining us one more year in beautiful Steamboat Springs!

Our Cheapest Price in Three Years!!!

Understanding that our economy is not quite what it used to be, we are offering our cheapest price on any ski trip in the last three years. This year's cost for the ski trip for the fly with us package is \$775 for students, \$800 for faculty and staff, and \$825 for guests. Sign up by Oct. 1st and we will take \$25 off of your cost. This price includes round trip direct flight on Southwest Airlines, roundtrip transfers to our condos, 5 night stay in Yampa View condominiums, and 4 day lift tickets. Our meet you there package is \$400 for students, \$425 for faculty and staff, and \$450 for guests. This includes lodging at Yampa View and lift tickets. Our condos sleep six people, have washers and dryers in each unit, have full kitchens for cooking, have cable tv, and have plenty of room for total relaxation for those who want to rest after a full day of being out on the slopes.

Steamboat Already Gets First Snow!

Winter has already come a bit early in Steamboat, and that day was on Sept 21st. That is good news for the powderhounds who are anticipating their first run of the year. The resort has spent over \$30 million in improvements over that past 2 years, and the anticipated deep powder for this year is going to make this the best year ever at Steamboat. Improvements to the mountain include: a new gondola in addition to the Silver Bullet Gondola, new restaurants, new snowmaking equipment, and an increase in size to Ski Time Square
