

1810 Homework

All work should be shown on these problems. The work must be done thoroughly, neatly, and clearly and kept in a file/note book. Select problems will be taken up (possibly without prior notice) for grading. You learn by working problems, not simply by attending lectures and seeing problems worked for you. Working together is encouraged, as is using any appropriate resource to help you understand the homework, which is key to doing well. **I do not accept late homework**, you need to do it and hand it in on time.
