

**TENNESSEE ACADEMY OF SCIENCE  
Format for Title and Abstract Submissions**

**Instructions for Titles and Abstracts:**

1. The title and abstract should be typed with a 12 point font size in Times New Roman.
2. TYPE THE TITLE IN UPPER CASE.
3. Following the title, type in **bold italics** the first name, middle initial (if desired), and last name of each author. Do not include academic degrees.
4. Indicate student authors with an asterisk following the name.
5. The authors' names should be followed in italics by the official name(s) of the academic institution, city, and state (no abbreviations).
6. The abstract text should begin immediately after the address. The right margin should not be justified.
7. The abstract should state concisely the **purpose, objectives, results, and conclusions**.
8. The abstract should be written as a single paragraph not to exceed **150 words**.
9. Do not include literature citations or diagrams.
10. Scientific names should be indicated by either italic type or underline.

***Single author, single institution:***
