

Workshop for K-12 Teachers

Lunar Samples Science Program

Description:

A session on how to incorporate Earth's nearest neighbor in space in the study of mathematics (ratios/distance scale) and science (observing and recording data). The theme of the session is NASA's Vision for Space Exploration in returning humans to the Moon, Mars and Beyond. NASA educational materials will be provided.

Date: November 8, 2006

Time: 3:30 - 5:30 pm

Instructor: Wil Robertson, Ph.D., NASA Aerospace Education Specialist

Location: MTSU Campus, Fairview Building, 820 Fairview Ave., Murfreesboro TN

Audience: K - 12 Science/Math Teachers

Register: Contact Judy Carter, jcarter@mtsu.edu or 615-904-8573 by October 25
